Dear Ms. Pallante:

Please reconsider the ramifications of the Aereo Supreme Court decision which gives even more power to corporations at the expense of the average person. This should never have happened and is already being used by major networks (FOX) using this case to control the Dish Network.

We stand with artists and others against the control of copyrighted works by these companies. This recent court case abridges many of our choices and freedoms to benefit a few.

Why do we allow these corporations to control/write our laws? What about the 99%?

Thank you for your consideration,

Pala
