

Please don't raise the fee for registering images. This fee increase that is nearly double, will affect how we can protect our creative work. If rates are raised, I feel that more and more people will not register their images. Artist and other creative individuals will be greatly affected by this proposed change. Many of us spend our incoming maintaining, building and creating work. My fear is more and more artist will opt to have their creative work remain as orphan works because they will not be able to afford to register.

Thank you for your time and consideration,

Sincerely,

Jennifer Litterer
