DMCA Experation of being Allowed to Jailbreak my phone/tablet

5

I strongly rely on being able to jailbreak my iPhone devices in our corporate enviornment to enable better testing, and to allow the device to do more then what the selling company will allow us to do.

Please perminatly extend to the DMCA that we are allowd to legaly Jailbreak our devices so we can be allowed to revoloutonize the world.

Support:

Being able to use propritary bluetooth barcode scanners with an iPhone/iPad to process our warehouse shipping orders.
