## ENVIRONMENTAL PROTECTION AGENCY

#### 40 CFR Part 52

[EPA-R03-OAR-2013-0132; FRL-9925-27-Region-3]

#### Approval and Promulgation of Air Quality Implementation Plans; District of Columbia, Maryland, and Virginia; Attainment Demonstration for the 1997 8-Hour Ozone National Ambient Air Quality Standard for the Washington, DC-MD-VA Moderate Nonattainment Area

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is approving the attainment demonstration and associated contingency measures and motor vehicle emission budgets (MVEBs) for the Washington, DC-MD-VA, moderate ozone nonattainment area (Washington Area) for the 1997 8-hour ozone National Ambient Air Quality

Standard (NAAQS) as submitted by the District of Columbia, the State of Maryland, and the Commonwealth of Virginia as revisions to each of their State Implementation Plans (SIPs). EPA has determined that each of the three SIP revisions including specifically the attainment demonstration, contingency measures and MVEBs meet the applicable requirements of the Clean Air Act (CAA or Act), and EPA is approving each revision.

**DATES:** This final rule is effective on May 11, 2015.

**ADDRESSES:** EPA has established a docket for this action under Docket ID Number EPA-R03-OAR-2013-0132. All documents in the docket are listed in the [www.regulations.gov](http://www.regulations.gov) Web site. Although listed in the electronic docket, some information is not publicly available, *i.e.*, confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through [www.regulations.gov](http://www.regulations.gov) or in hard copy for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the State submittal are available at the District of Columbia Department of the Environment, Air Quality Division, 1200 1st Street NE., 5th Floor, Washington, DC 20002; the Maryland Department of the Environment, 1800 Washington Boulevard, Suite 705, Baltimore, Maryland 21230; and the Virginia Department of Environmental Quality, 629 East Main Street, Richmond, Virginia 23219.

#### **SUPPLEMENTARY INFORMATION:**

##### **I. Background**

The District of Columbia, the State of Maryland, and the Commonwealth of Virginia submitted formal SIP revisions on June 12, 2007, June 4, 2007, and June 12, 2007, respectively (hereafter the June 2007 SIP revisions). These June 2007 SIP revisions were submitted to address CAA requirements for the 1997 ozone NAAQS and included the 2002 base year emissions inventory, the 15 percent reasonable further progress plan (RFP) (15% RFP plan), RFP contingency measures, an attainment demonstration to show attainment of the 1997 ozone

NAAQS by June 15, 2010, a reasonably available control measures (RACM) analysis, and contingency measures for failure to attain. In addition, the submission included the transportation conformity 2008, 2009, and 2010 year MVEBs associated with the RFP plan, the attainment demonstration and contingency measures, respectively. The District of Columbia Department of the Environment (DDOE), the Maryland Department of the Environment (MDE), and the Virginia Department of Environmental Quality (VADEQ) (hereafter referred to as the three States) jointly developed the June 2007 SIP revisions.<sup>1</sup>

These elements of the Washington Area 8-hour ozone plan were required for the Washington Area by sections 172(c), 182(a), and 182(b)(1) of the CAA due to the classification of the Washington Area as a moderate ozone nonattainment area under the 1997 ozone NAAQS. The boundaries of the Washington Area are defined in the tables for “1997 8-Hour Ozone NAAQS (Primary and Secondary)” in 40 CFR 81.309, 81.321 and 81.347.<sup>2</sup>

On September 11, 2011 (76 FR 58116), EPA approved portions of the June 2007 SIP revisions for the three States including the 2002 base year emissions inventory, 15% RFP plan and associated MVEBs for 2008, RFP contingency measures, and the RACM analysis. In this rulemaking action, EPA is approving the remaining portions of the June 2007 SIP revisions for the 1997 ozone NAAQS including the attainment demonstration, the contingency measures, and the associated 2009 and 2010 year MVEBs.<sup>3</sup> In a March 20, 2013 notice of proposed rulemaking (the March 20, 2013 NPR), EPA proposed to approve these remaining elements of the June 2007 SIP revisions. 78 FR 17161.

<sup>1</sup> The three States developed and submitted the “Plan to Improve Air Quality in the Washington, DC-MD-VA Region, State Implementation Plan (SIP) for 8-Hour Ozone Standard, Moderate Area SIP” (hereafter the Washington Area 8-hour ozone plan).

<sup>2</sup> Effective July 20, 2012 (77 FR 30088, May 21, 2012), EPA designated and classified nonattainment areas under the 2008 ozone NAAQS codified at 40 CFR 50.15 for most areas of the country including the Washington Area. The Washington Area was designated as nonattainment and classified as marginal nonattainment. The boundaries of the ozone nonattainment area classified as moderate under the 1997 ozone NAAQS are the same as those of the ozone nonattainment area classified as marginal under the 2008 ozone NAAQS. See 40 CFR 81.309, 81.321 and 81.347. Hereafter, when referring to the Washington Area in relation to SIP requirements required *solely* due to the 2008 ozone NAAQS, the term “Washington 2008 Ozone Nonattainment Area” will be used.

<sup>3</sup> The attainment demonstration was required under 40 CFR 51.908 to demonstrate attainment of the 1997 ozone NAAQS by the applicable attainment date of June 15, 2010 (the June 2010 attainment date).
