**Privacy Act Notice:** Section 111 of title 17 of the *United States Code* authorizes the Copyright Office to collect the personally identifying information (PII) requested on this form in order to process your statement of account. PII is any personal information that can be used to identify or trace an individual, such as name, address, and telephone numbers. By providing PII, you are agreeing to the routine use of it to establish and maintain a public record, which includes appearing in the Office's public indexes and in search reports prepared for the public. The effect of not providing the PII requested is that it may delay processing of your statement of account and its placement in the completed record of statements of account, and it may affect the legal sufficiency of the filing, a determination that would be made by a court of law.

**E**  
Secondary  
Transmission  
Service:  
Subscribers  
and Rates

**SECONDARY TRANSMISSION SERVICE: SUBSCRIBERS AND RATES**  
**In General:** The information in space E should cover all categories of secondary transmission service of the cable system, that is, the retransmission of television and radio broadcasts by your system to subscribers. Give information about other services (including pay cable) in space F, not here. All the facts you state must be those existing on the last day of the accounting period (June 30 or December 31, as the case may be).  
**Number of Subscribers:** Both blocks in space E call for the number of subscribers to the cable system, broken down by categories of secondary transmission service. In general, you can compute the number of subscribers in each category by counting the number of billings in that category (the number of persons or organizations charged separately for the particular service at the rate indicated—not the number of sets receiving service).  
**Rate:** Give the standard rate charged for each category of service. Include both the amount of the charge and the unit in which it is generally billed. (Example: "\$20/mth"). Summarize any standard rate variations within a particular rate category, but do not include discounts allowed for advance payment.  
**Block 1:** In the left-hand block in space E, the form lists the categories of secondary transmission service that cable systems most commonly provide to their subscribers. Give the number of subscribers and rate for each listed category that applies to your system. **Note:** Where an individual or organization is receiving service that falls under different categories, that person or entity should be counted as a subscriber in each applicable category. Example: a residential subscriber who pays extra for cable service to additional sets would be included in the count under "Service to the first set," and would be counted once again under "Service to additional set(s)."  
**Block 2:** If your cable system has rate categories for secondary transmission service that are different from those printed in block 1, (for example, tiers of services that include one or more secondary transmissions), list them, together with the number of subscribers and rates, in the right-hand block. A two- or three-word description of the service is sufficient.

**SERVICES OTHER THAN SECONDARY TRANSMISSIONS: RATES**  
**In General:** Space F calls for rate (not subscriber) information with respect to all your cable system's services that were not covered in space E, that is, those services that are not offered in combination with any secondary transmission service for a single fee. There are two exceptions: you do not need to give rate information concerning (1) services furnished at cost or (2) services or facilities furnished to nonsubscribers. Rate information should include both the amount of the charge and the unit in which it is usually billed. If any rates are charged on a variable per-program basis, enter only the letters "PP" in the rate column.  
**Block 1:** Give the standard rate charged by the cable system for each of the applicable services listed.  
**Block 2:** List any services that your cable system furnished or offered during the accounting period that were not listed in block 1 and for which a separate charge was made or established. List these other services in the form of a brief (two- or three-word) description and include the rate for each.

**USE THIS FORM WHEN:**

- You are the owner (or represent the owner) of a cable system; and
- You are filing the semiannual statement of account required by the copyright law; and
- Your system's semiannual gross receipts for secondary transmissions (the figure you give in space K of the form) is *less than* \$527,600; and
- You are also depositing the required semiannual royalty fee with the Licensing Section of the Copyright Office.

**IF YOUR FIGURE FOR SEMIANNUAL GROSS RECEIPTS IN SPACE K IS \$527,600 OR MORE, USE SA3 (LONG FORM)**

## GENERAL INSTRUCTIONS FOR SA1-2 (SHORT FORM)

### CABLE SYSTEMS AND THE COPYRIGHT LAW (P.L. 94-553)

Cable systems are subject to copyright liability for their use of copyrighted material in secondary transmissions (the retransmission of television and radio broadcasts to subscribers). Cable retransmissions of copyrighted programming are subject to a system of statutory licensing. Among other things, this means that twice a year the owner of a cable system must send a statement of account, together with a royalty fee, to the Licensing Section of the Copyright Office.

### TERMS

**Primary stream.** A primary stream is the single digital stream of programming that, before June 12, 2009, was substantially duplicating the programming transmitted by the television broadcast station as an analog signal. If there is no stream, then the primary stream is the single digital stream of programming transmitted by the television broadcast station for the longest period of time.

**Primary transmitter.** A primary transmitter is a television or radio broadcast station licensed by the Federal Communications Commission, or by an appropriate governmental authority of Canada or Mexico, that makes primary transmissions to the public.

**Subscriber.** The term subscriber means a person or entity that receives a secondary transmission service from a cable system and pays a fee for the service, directly or indirectly, to the cable system.

**Subscribe.** The term subscribe means to elect to become a subscriber.

In providing copyright liability for cable systems, the law draws a distinction between "primary transmissions" and "secondary transmissions":

- **Primary transmissions.** A primary transmission is a transmission made to the public by a transmitting facility whose signals are being received and further transmitted by a secondary transmission service, regardless of where or when the performance or display was first transmitted. In the case of a television broadcast station, the primary

stream and any multicast streams transmitted by the station constitute primary transmissions.

- **Secondary transmissions.** A secondary transmission is the basic service of retransmitting television and radio broadcasts to subscribers. The statute requires all U.S. cable systems, regardless of how many subscribers they have or whether they are carrying any distant signals, to pay some copyright royalties. However, instead of obliging cable systems to bargain individually for each copyrighted program they retransmit, the law offers them the opportunity of obtaining a statutory license for secondary transmissions.

**Note:** Secondary transmissions do not include transmissions originated by a cable system (including local origination cablecasting, pay cable, program services, background music services, and originations on leased or access channels). Cable systems must negotiate for the use of any copyrighted material in the programming they originate, and their originations are not subject to statutory licensing.

### HOW TO FILE THE STATEMENT OF ACCOUNT ROYALTY AND FILING FEES

- 1 Study the general information on these pages and read through the detailed instructions in the statement of account form itself. Before you start completing the form, make sure that you have collected all the necessary information and that you are using the right form.
- 2 Fill out the statement of account form, giving all the required information about your cable system and about the television and radio stations carried by it. Print the information in black ink.
- 3 Certify the statement of account by signing at space O. The statement of account is not acceptable unless it bears the original handwritten signature of one of the persons indicated in space O as authorized to certify it under Copyright Office regulations.
- 4 Make an *electronic payment* (see note below) in the amount you have calculated in space L to cover the copyright
