

U.S. COPYRIGHT OFFICE
INSTRUCTIONS FOR THE SA3E LONG FORM – EXCEL FORMAT
The SA3E is a U.S. Copyright Office form
Email completed workbook to
coplicsoa@copyright.gov

Submitting the Form

- This form is effective beginning with the January 1 to June 30, 2017, accounting period (2017/1).
- When complete, this workbook should be signed electronically using an "s-signature" (for example, /s/ John Smith) in space O and saved and submitted as a Microsoft Excel workbook (.xls or .xlsx). Email the workbook in its native Excel format to the U.S. Copyright Office Licensing Division at coplicsoa@copyright.gov. Do not print and mail the workbook to the U.S. Copyright Office. There is no need to remove the instructions tab before submitting the template by email. Do not add additional worksheet or workbook protections to the template before submitting, as that may cause your submission to be rejected.

General Instructions

- *Alphabetization:* Alphabetization is NOT required for any spaces.
- *Excel:* The form was designed for optimum use with Excel 2007 and later versions. A computer that runs Excel 2003 can be used to complete the form but, as described below, it may be necessary to bypass certain error messages generated by Microsoft.
- *Protection:* All tabs of the SA3E Long Form Excel spreadsheet have been protected in Excel so that the user does not accidentally edit the underlying formulas that allow the form to function properly. **The form is designed to function with all tabs in protected mode. It is strongly recommended that you do not unprotect any tabs on the form.**
- *Navigation:* To navigate between the tabs, use the mouse to click on the tab listings at the bottom of the screen to select the tab you wish to view/edit. Within a tab, use the mouse or the arrow keys to navigate between fields. Depending on the settings in Excel, hitting the "Tab" button on the keyboard will not necessarily move the user to the next tab, nor will it necessarily move the user to populate the next field within a tab.

General Data Input Tab

- Ensure that the proper accounting period is filled in numerical format (for example, "2017/1") next to the "ACCOUNTING PERIOD:" listed at the top of the page. Failure to enter the accounting period here will cause the form to not populate the correct accounting period on the header of each page of the statement of account.
- Space A – Fill in the accounting period in text form (for example, for 2017/1, fill in "January 1 – June 30, 2017")
- Space B – If this is the system's first filing, place an "X" in the appropriate box and leave the system ID number blank. Otherwise, fill in the system ID number. Fill in all other applicable information in the appropriate highlighted boxes.
- Spaces C, E, F, M, N, O – Fill in all applicable information in the appropriate highlighted boxes.

Gross Receipts Tab

- **The total gross receipts should be entered on the "Total Gross Receipts" line whether or not the system uses subscriber groups.**
- Users that wish to name individual subscriber groups by community names or other designations may fill in the "Subgroup/Community Name" column.
- Cable systems that have subscriber groups should fill in the individual subscriber group gross receipts in the "Gross Receipts" column. The "Subgroup Gross Receipts Total" box will automatically add together all entries from the "Gross Receipts" column allowing users to ensure their total gross receipts match the cumulative gross receipts of the system's subscriber groups. The form will display an "OUT OF BALANCE" error message if the "Gross Receipts" column total fails to match the "Total Gross Receipts" input.

Notes Tab

- The notes tab is available for user input to provide notes or other information for the copyright examiner.

Signals Tab

- Enter the call signs, broadcast channel numbers, type of station, and location of station, and enter/select what the basis of carriage would be if the station was distant (for example, "O," "E," or "LAC") (filling in this column will not automatically classify the signal as distant on space G). The DSE column will automatically populate with the correct DSE value based on the type of station classification. In unused rows, "#N/A" will display in the DSE column, but this will not impact the form's operation.
- It is only necessary to list signals that are carried in multiple channel lineups once on the Signals tab. Listing a signal twice will not interfere with the operation of the form if the listings are identical; however, if the same signal is listed more than once and the listings are different, errors will occur in other portions of the form.
- Note that this tab can accommodate up to 1285 stations and, if desired, can be used as a master list for multiple SOA filings. In other words, an operator may fill out the Signals tab with all the signals from multiple SOA filings and copy the signal information into other Excel SA3E Long Form Signal tabs to simplify data entry. Signals listed in the Signals tab that are not carried on the system for which the particular form is being completed will not impact the rest of the form's operation.
- **Detailed instructions are located at the end of the paper SA3 form, located at**
<https://www.copyright.gov/forms/sa3.pdf>

Page 1 – Spaces A-C

- Spaces A, B, and C will automatically populate with information from the General Data Input tab, including a barcode. **Note that the barcode will only display if the barcode font has been downloaded as described above.**
- Space D will automatically populate with the information for the first community listed on the "Page 1b – Space D(1)" tab.

Page 1b – Space D

- All community names, states, channel lineups, and subgroup numbers can be manually entered in the highlighted areas.
- Add rows as needed so that all communities are listed in space D.

Page 2 – Spaces E-F

- Blocks 1 of both spaces E and F will automatically populate with information from the General Input Data tab.
- Information can be manually entered into the highlighted areas of block 2 for both spaces E and F.

Page 3 – Space G (AA-AW)

- Fill in all the call signs for each channel lineup, and select whether the signal is local or distant in the areas served by the channel lineup.
- The broadcast channel number, type of station, basis of carriage (if the station is selected as distant), and location of station columns will automatically populate with information from the Signals tab.
- There are 23 Space G tabs available for identifying channel lineups (AA-AW). Unused Space G tabs may be hidden or deleted. (Note: the "hide tabs" option is not available for operators using pre-2007 versions of Excel.)
- If additional Space G tabs are needed beyond the 23 available, users may create additional Space G tabs by right clicking the "Pg 3 – Space G (AW)" tab, clicking "Move or Copy," selecting "Pg 4 - Space H" from the "Before sheet" list, checking the "Create a copy" box, and clicking "OK." A new tab called "Pg 3 Space G (AW) (2)" should generate after the "Pg 3 - Space G (AW)" tab. Rename this tab by right clicking the tab at the bottom of the screen and clicking "Rename," and entering "Pg 3 Space G (AX)." Also rename the highlighted channel line-up within the new tab so that it now displays as "CHANNEL LINE-UP AX." Repeat this process as necessary progressing through the alphabet and continuing with "Pg 3 - Space G (AAA)," "Pg 3 - Space G (AAB)," etc.

Page 4 – Space H

- Information can be manually entered into the highlighted areas.

Page 5 – Space I

- Section 1 – **The "No" box has been checked in this section by default.** The "Yes" box can be manually checked for cable systems with substitute carriage.
- Section 2 – Information can be manually entered into the highlighted areas where applicable.

Page 6 – Space J

- Information can be manually entered into the highlighted areas.

Page 7 – Spaces K-L

- Space K – The amount of gross receipts will automatically populate with information from the Gross Receipts tab.

- Space L, Block 1 – This area will automatically populate with information from the Gross Receipts tab and will automatically calculate the minimum fee based on that information.
- Space L, Block 2 – The appropriate box should be manually checked depending on whether the system carries distant stations.
- Space L, Block 3 – The base rate fee will automatically populate once information is input for part 8 (section 3 or 4) or part 9, block A of the DSE schedule. The 3.75 fee will automatically populate once information is input for part 6, block C or Part 9 of the DSE schedule.
- Space L, Block 4 – Line 1 will automatically populate. **If the system calculates a syndicated surcharge in part 7 or in part 9, that surcharge must be manually entered onto line 2.** Line 3 will automatically populate based on whether any information is input into space Q. The total royalty fee will automatically calculate based on the rest of the information from block 4.
- Space L – Enter the EFT transaction, trace, or tracking ID number, which is a minimum of 8 alpha-numeric characters (for example, "2841H3KC" or "141351782016654"). The length of the EFT ID number varies depending on the type of EFT payment used.

Page 8 – Spaces M-O

- Spaces M and N will automatically populate with information from the General Input Data tab.
- Space O – The appropriate box identifying the signatory must be checked. The "Typed or printed name" and "Title" lines will automatically populate with information from the General Input Data tab.
- The form should be electronically signed using a "s-signature" (for example, /s/ John Smith). An EFT tracking ID must first be entered on page 7, space L, before the worksheet will allow a signature to be entered.

Page 9 – Spaces P-Q

- Space P – **The "No" box has been checked in this section by default.** The "Yes" box may be manually checked and information may be manually input in the highlighted areas.
- Space Q – If applicable, the necessary data can be manually input on lines 1 and 2. The remaining calculations will be performed automatically. Any interest calculated in space Q will automatically populate on space L, block 4, line 3.

Page 11 – Parts 1-2

- Part 1 will automatically populate with information from the General Input Data tab.
- Part 2 – Call signs of non-exempt distant stations can be manually input into the highlighted fields. DSE values will automatically populate with information from the Signals tab. The calculation for the "Sum of DSEs" box will be performed automatically based on the information entered on this tab.
- Additional rows may be added to accommodate additional signals. If additional rows are added, remember to copy the DSE formula into the new rows.

Page 12 – Parts 3-5

- Parts 3 and 4 – Information can be manually entered into the highlighted areas. The calculation for the "Sum of DSEs" boxes will be performed automatically based on the information entered in the DSE columns in parts 3 and 4.
- Part 5 – The calculation for the "Total Number of DSEs" will be performed automatically based on the information entered into parts 2, 3, and 4.

Page 13 – Part 6

- Block A – **The "No" box has been checked by default. Cable systems that are outside of all markets should manually check the "Yes" box.**
- Block B – Call signs and permitted bases of carriage can be entered into the highlighted fields. The DSE column will automatically populate with information from the Signals tab. The total permitted DSE calculation will be performed automatically.
- Cable systems with more than 21 distant permitted stations can use the "Pg 13 – Part 6 (Continued)" tab to input additional signals. Again, the DSE values will automatically populate with information from the Signals tab. Any DSEs entered on this tab will be accounted for automatically in the permitted DSE calculation on the preceding tab.
- Block C – If the sum of DSEs listed in part 5 is greater than the sum of DSEs listed in part 6, block C will automatically populate and perform the necessary calculations for the 3.75 fee. The information in line 7 will automatically populate on space L, block 3, line 2. **If any DSE information is input into the 3.75 fee portion of part 9, block C will clear the calculation automatically, and the 3.75 royalty fee calculation from part 9 will instead automatically populate on space L, block 3, line 2.**

Page 14 – Part 7

- Stations carried under part-time and substitute carriage may be entered manually in the area at the top of this tab.
- Part 7, Block A – The appropriate box should be manually checked depending on the location of the system.
- Part 7, Blocks B and C – **The “No” boxes have been checked by default.** The “Yes” boxes in either area may be manually checked, and any applicable call signs may be manually entered. The DSE columns will automatically populate with information from the Signals tab. The “Total DSEs” calculations will be performed automatically.

Page 15 – Part 7

- Block D – This area will automatically populate with information from the Gross Receipts tab and the earlier portions of part 7.
- Information can be manually entered into the remaining highlighted areas on this tab and the area at the top of the “Pg 16 – Part 7-8 tab.”
- **In the event a syndicated exclusivity surcharge is calculated in part 7, that information will NOT automatically populate in space L, block 4, line 2; the information must be re-entered manually on that line.**

Pg 16 – Parts 7-8

- Part 8, Block A – **The “Yes” box has been checked by default. Cable systems that do not have subscriber groups should manually check the “No” box.**
- If the “No” box is manually checked, the appropriate sections of block B will automatically populate (either on this tab or in the top section of the following “Pg 17 – Part 8-9” tab) with the information from part 6, and the “Base Rate Fee” calculation will be performed automatically. The information for the “Base Rate Fee” will automatically populate on space L, block 3, line 1. **If any DSE information is input into the base rate fee portion of part 9, the base rate fee calculation from part 9 will instead automatically populate on space L, block 3, line 1.**

Pg 19 – Part 9 (1-40)

- For cable systems with subscriber groups, fill in the permitted distant call signs in the appropriate subscriber group areas.
- Permitted bases of carriage may be filled in next to the call signs in column C (and columns H, M, and R, if applicable) of the tab.
- The DSE column will automatically populate with information from the Signals tab.
- The “Total DSEs” calculation for each subscriber group will automatically be performed based on the information entered into each subscriber group area.
- The “Gross Receipts” line for each subscriber group will automatically populate with information from the Gross Receipts tab.
- The “Base Rate Fee” calculation for each subscriber group will be automatically performed.
- The total “Base Rate Fee” calculation throughout all subscriber groups will be automatically performed and will display only at the bottom of the “Pg 19 – Part 9(1)” tab. This information will automatically populate on space L, block 3, line 1 if part 9 is used.
- **DO NOT DELETE UNUSED PART 9, BASE RATE FEE TABS. Deleting unused tabs in any part of part 9 will cause the form to function improperly.**

Page 19 – 3.75 Fee Part 9 (1-40)

- For cable systems with subscriber groups, fill in the non-permitted distant call signs in the appropriate subscriber group areas.
- The DSE column for each subscriber group will automatically populate with information from the Signals tab.
- The “Total DSEs” calculation for each subscriber group will automatically be performed based on the information entered into each subscriber group area.
- The “Gross Receipts” line for each subscriber group will automatically populate with information from the Gross Receipts tab.
- The “Base Rate Fee” calculation (which is actually a 3.75 rate calculation) for each subscriber group will be automatically performed.
- The total “3.75 Rate Fee” calculation throughout all subscriber groups will be automatically performed and will display only at the bottom of the “Pg 19 – 3.75 Fee Part 9 (1)” tab. This information will automatically populate on space L, block 3, line 3 if part 9 is used.
- **DO NOT DELETE UNUSED PART 9, 3.75 FEE TABS. Deleting unused tabs in any part of part 9 will cause the form to function improperly.** Excess part 9 tabs may be hidden prior to submission. (Note: the option of hiding unused tabs is not available for operators using pre-2007 versions of Excel.)

Page 20 – Part 9 (1-40)

- Cable systems that have a syndicated exclusivity surcharge calculated on a subscriber group basis can use these tabs to manually perform those calculations.
- **In the event a syndicated exclusivity surcharge is calculated here (instead of in part 7), that information will NOT automatically populate in space L, block 4, line 2; the information must be re-entered manually on that line.**

- Unused part 9 syndicated exclusivity surcharge tabs may either be hidden prior to submission. (Note: the option of hiding unused tabs is not available for operators using pre-2007 versions of Excel.)

Privacy Act Notice: Section 111 of Title 17 of the United States Code authorizes the Copyright Office to collect the personally identifying information (PII) requested on this form in order to process your statement of account. PII is any personal information that can be used to identify or trace an individual, such as name, address, and telephone numbers. By providing PII, you are agreeing to the routine use of it to establish and maintain a public record, which includes appearing in the Office's public indexes and in search reports prepared for the public. The effect of not providing the PII requested is that it may delay processing of your statement of account and its placement in the completed record of statements of account, and it may affect the legal sufficiency of the filing, a determination that would be made by a court of law.

Instructions: List each separate community served by the cable system. A “community” is the same as a “community unit” as defined in FCC rules: “a separate and distinct community or municipal entity (including unincorporated communities within unincorporated areas and including single, discrete unincorporated areas.” 47 C.F.R. §76.5(dd). The first community that you list will serve as a form of system identification hereafter known as the “first community.” Please use it as the first community on all future filings. Note: Entities and properties such as hotels, apartments, condominiums, or mobile home parks should be reported in parentheses below the identified city or town. If all communities receive the same complement of television broadcast stations (i.e., one channel line-up for all), then either associate all communities with the channel line-up “A” in the appropriate column below or leave the column blank. If you report any stations on a partially distant or partially permitted basis in the DSE Schedule, associate each relevant community with a subscriber group, designated by a number (based on your reporting from Part 9). When reporting the carriage of television broadcast stations on a community-by-community basis, associate each community with a channel line-up designated by an alpha-letter(s) (based on your Space G reporting) and a subscriber group designated by a number (based on your reporting from Part 9 of the DSE Schedule) in the appropriate columns below. E Secondary Transmission Service: Subscribers and Rates	SECONDARY TRANSMISSION SERVICE: SUBSCRIBERS AND RATES In General: The information in space E should cover all categories of secondary transmission service of the cable system, that is, the retransmission of television and radio broadcasts by your system to subscribers. Give information about other services (including pay cable) in space F, not here. All the facts you state must be those existing on the last day of the accounting period (June 30 or December 31, as the case may be). Number of Subscribers: Both blocks in space E call for the number of subscribers to the cable system, broken down by categories of secondary transmission service. In general, you can compute the number of subscribers in each category by counting the number of billings in that category (the number of persons or organizations charged separately for the particular service at the rate indicated—not the number of sets receiving service). Rate: Give the standard rate charged for each category of service. Include both the amount of the charge and the unit in which it is generally billed. (Example: "\$20/mth"). Summarize any standard rate variations within a particular rate category, but do not include discounts allowed for advance payment. Block 1: In the left-hand block in space E, the form lists the categories of secondary transmission service that cable systems most commonly provide to their subscribers. Give the number of subscribers and rate for each listed category that applies to your system. Note: Where an individual or organization is receiving service that falls under different categories, that person or entity should be counted as a subscriber in each applicable category. Example: a residential subscriber who pays extra for cable service to additional sets would be included in the count under "Service to the first set" and would be counted once again under "Service to additional set(s)." Block 2: If your cable system has rate categories for secondary transmission service that are different from those printed in block 1 (for example, tiers of services that include one or more secondary transmissions), list them, together with the number of subscribers and rates, in the right-hand block. A two- or three-word description of the service is sufficient. <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="3" style="text-align: center;">BLOCK 1</th> <th colspan="3" style="text-align: center;">BLOCK 2</th> </tr> <tr> <th style="text-align: center;">CATEGORY OF SERVICE</th> <th style="text-align: center;">NO. F Services Other Than Secondary Transmissions: Rates	SERVICES OTHER THAN SECONDARY TRANSMISSIONS: RATES In General: Space F calls for rate (not subscriber) information with respect to all your cable system's services that were not covered in space E, that is, those services that are not offered in combination with any secondary transmission service for a single fee. There are two exceptions: you do not need to give rate information concerning (1) services furnished at cost or (2) services or facilities furnished to nonsubscribers. Rate information should include both the amount of the charge and the unit in which it is usually billed. If any rates are charged on a variable per-program basis, enter only the letters "PP" in the rate column. Block 1: Give the standard rate charged by the cable system for each of the applicable services listed. Block 2: List any services that your cable system furnished or offered during the accounting period that were not listed in block 1 and for which a separate charge was made or established. List these other services in the form of a brief (two- or three-word) description and include the rate for each. <table border="1" style="width: 100%; border-collapse: collapse;"> <thead> <tr> <th colspan="4" style="text-align: center;">BLOCK 1</th> <th colspan="2" style="text-align: center;">BLOCK 2</th> </tr> <tr> <th style="text-align: center;">CATEGORY OF SERVICE</th> <th style="text-align: center;">RATE</th> <th style="text-align: center;">CATEGORY OF SERVICE</th> <th style="text-align: center;">RATE</th> <th style="text-align: center;">CATEGORY OF SERVICE</th> <th style="text-align: center;">RATE</th> </tr> </thead> <tbody> <tr> <td>Continuing Services:</td> <td></td> <td>Installation: Non-residential</td> <td></td> <td></td> <td></td> </tr> <tr> <td>• Pay cable</td> <td style="text-align: center;">\$ 15.00</td> <td>• Motel, hotel</td> <td></td> <td></td> <td></td> </tr> <tr> <td>• Pay cable—add'l channel</td> <td></td> <td>• Commercial</td> <td></td> <td></td> <td></td> </tr> <tr> <td>• Fire protection</td> <td></td> <td>• Pay cable</td> <td></td> <td></td> <td></td> </tr> <tr> <td>• Burglar protection</td> <td></td> <td>• Pay cable—add'l channel</td> <td></td> <td></td> <td></td> </tr> <tr> <td>Installation: Residential</td> <td></td> <td>• Fire protection</td> <td></td> <td></td> <td></td> </tr> <tr> <td>• First set</td> <td style="text-align: center;">\$ 49.99</td> <td>• Burglar protection</td> <td></td> <td></td> <td></td> </tr> <tr> <td>• Additional set(s)</td> <td></td> <td>Other services:</td> <td></td> <td></td> <td></td> </tr> <tr> <td>• FM radio (if separate rate)</td> <td></td> <td>• Reconnect</td> <td style="text-align: center;">\$ 49.99</td> <td></td> <td></td> </tr> <tr> <td>• Converter</td> <td></td> <td>• Disconnect</td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td>• Outlet relocation</td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td></td> <td>• Move to new address</td> <td></td> <td></td> <td></td> </tr> </tbody> </table>						BLOCK 1				BLOCK 2		CATEGORY OF SERVICE	RATE	CATEGORY OF SERVICE	RATE	CATEGORY OF SERVICE	RATE	Continuing Services:		Installation: Non-residential				• Pay cable	\$ 15.00	• Motel, hotel				• Pay cable—add'l channel		• Commercial				• Fire protection		• Pay cable				• Burglar protection		• Pay cable—add'l channel				Installation: Residential		• Fire protection				• First set	\$ 49.99	• Burglar protection				• Additional set(s)		Other services:				• FM radio (if separate rate)		• Reconnect	\$ 49.99			• Converter		• Disconnect						• Outlet relocation						• Move to new address

LEGAL NAME OF OWNER OF CABLE SYSTEM: Time Warner Cable Northeast LLC				SYSTEM ID# 006482		Name	
PRIMARY TRANSMITTERS: TELEVISION In General: In space G, identify every television station (including translator stations and low power television stations) carried by your cable system during the accounting period, except (1) stations carried only on a part-time basis under FCC rules and regulations in effect on June 24, 1981, permitting the carriage of certain network programs [sections 76.59(d)(2) and (4), 76.61(e)(2) and (4), or 76.63 (referring to 76.61(e)(2) and (4))]; and (2) certain stations carried on a substitute program basis, as explained in the next paragraph. Substitute Basis Stations: With respect to any distant stations carried by your cable system on a substitute program basis under specific FCC rules, regulations, or authorizations: - Do not list the station here in space G—but do list it in space I (the Special Statement and Program Log)—if the station was carried only on a substitute basis. - List the station here, and also in space I, if the station was carried both on a substitute basis and also on some other basis. For further information concerning substitute basis stations, see page (v) of the general instructions located in the paper SA3 form. Column 1: List each station's call sign. Do not report origination program services such as HBO, ESPN, etc. Identify each multicast stream associated with a station according to its over-the-air designation. For example, report multi-cast stream as "WETA-2". Simulcast streams must be reported in column 1 (list each stream separately; for example WETA-simulcast). Column 2: Give the channel number the FCC has assigned to the television station for broadcasting over-the-air in its community of license. For example, WRC is Channel 4 in Washington, D.C. This may be different from the channel on which your cable system carried the station. Column 3: Indicate in each case whether the station is a network station, an independent station, or a noncommercial educational station, by entering the letter "N" (for network), "N-M" (for network multicast), "I" (for independent), "I-M" (for independent multicast), "E" (for noncommercial educational), or "E-M" (for noncommercial educational multicast). For the meaning of these terms, see page (v) of the general instructions located in the paper SA3 form. Column 4: If the station is outside the local service area, (i.e. "distant"), enter "Yes". If not, enter "No". For an explanation of local service area, see page (v) of the general instructions located in the paper SA3 form. Column 5: If you have entered "Yes" in column 4, you must complete column 5, stating the basis on which your cable system carried the distant station during the accounting period. Indicate by entering "LAC" if your cable system carried the distant station on a part-time basis because of lack of activated channel capacity. For the retransmission of a distant multicast stream that is not subject to a royalty payment because it is the subject of a written agreement entered into on or before June 30, 2009, between a cable system or an association representing the cable system and a primary transmitter or an association representing the primary transmitter, enter the designation "E" (exempt). For simulcasts, also enter "E". If you carried the channel on any other basis, enter "O." For a further explanation of these three categories, see page (v) of the general instructions located in the paper SA3 form. Column 6: Give the location of each station. For U.S. stations, list the community to which the station is licensed by the FCC. For Mexican or Canadian stations, if any, give the name of the community with which the station is identified. Note: If you are utilizing multiple channel line-ups, use a separate space G for each channel line-up.						G Primary Transmitters: Television

3 Computation of DSEs for Stations Carried Part Time Due to Lack of Activated Channel Capacity	Instructions: CAPACITY Column 1: List the call sign of all distant stations identified by "LAC" in column 5 of space G (page 3). Column 2: For each station, give the number of hours your cable system carried the station during the accounting period. This figure should correspond with the information given in space J. Calculate only one DSE for each station. Column 3: For each station, give the total number of hours that the station broadcast over the air during the accounting period. Column 4: Divide the figure in column 2 by the figure in column 3, and give the result in decimals in column 4. This figure must be carried out at least to the third decimal point. This is the "basis of carriage value" for the station. Column 5: For each independent station, give the "type-value" as "1.0." For each network or noncommercial educational station, give the type-value as ".25." Column 6: Multiply the figure in column 4 by the figure in column 5, and give the result in column 6. Round to no less than the third decimal point. This is the station's DSE. (For more information on rounding, see page (viii) of the general instructions in the paper SA3 form.

	8 Computation of Base Rate Fee	Instructions: You must complete this part of the DSE schedule for the SUM OF PERMITTED DSEs in part 6, block B; however, if block A of part 6 was checked "Yes," use the total number of DSEs from part 5. • In block A, indicate, by checking "Yes" or "No," whether your system carried any partially distant stations. • If your answer is "No," compute your system's base rate fee in block B. Leave part 9 blank. • If your answer is "Yes" (that is, if you carried one or more partially distant stations), you must complete part 9. Leave block B below blank. What is a partially distant station? A station is "partially distant" if, at the time your system carried it, some of your subscribers were located within that station's local service area and others were located outside that area. For the definition of a station's "local service area," see page (v) of the general instructions.

IMPORTANT: It is no longer necessary to report television signals on a system-wide basis. Carriage of television broadcast signals shall instead be reported on a community-by-community basis (subscriber groups) if the cable system reported multiple channel line-ups in Space G. In General: If any of the stations you carried were partially distant, the statute allows you, in computing your base rate fee, to exclude receipts from subscribers located within the station's local service area, from your system's total gross receipts. To take advantage of this exclusion, you must: First: Divide all of your subscribers into subscriber groups, each group consisting entirely of subscribers that are distant to the same station or the same group of stations. Next: Treat each subscriber group as if it were a separate cable system. Determine the number of DSEs and the portion of your system's gross receipts attributable to that group, and calculate a separate base rate fee for each group. Finally: Add up the separate base rate fees for each subscriber group. That total is the base rate fee for your system. NOTE: If any portion of your cable system is located within the top 100 television market and the station is not exempt in part 7, you must also compute a Syndicated Exclusivity Surcharge for each subscriber group. In this case, complete both block A and B below. However, if your cable system is wholly located outside all major television markets, complete block A only. How to Identify a Subscriber Group for Partially Distant Stations Step 1: For each community served, determine the local service area of each wholly distant and each partially distant station you carried to that community. Step 2: For each wholly distant and each partially distant station you carried, determine which of your subscribers were located outside the station's local service area. A subscriber located outside the local service area of a station is distant to that station (and, by the same token, the station is distant to the subscriber.) Step 3: Divide your subscribers into subscriber groups according to the complement of stations to which they are distant. Each subscriber group must consist entirely of subscribers who are distant to exactly the same complement of stations. Note that a cable system will have only one subscriber group when the distant stations it carried have local service areas that coincide. Computing the base rate fee for each subscriber group: Block A contains separate sections, one for each of your system's subscriber groups. In each section: • Identify the communities/areas represented by each subscriber group. • Give the call sign for each of the stations in the subscriber group's complement—that is, each station that is distant to all of the subscribers in the group. • If: 1) your system is located wholly outside all major and smaller television markets, give each station's DSE as you gave it in parts 2, 3, and 4 of this schedule; or, 2) any portion of your system is located in a major or smaller television market, give each station's DSE as you gave it in block B, part 6 of this schedule. • Add the DSEs for each station. This gives you the total DSEs for the particular subscriber group. • Calculate gross receipts for the subscriber group. For further explanation of gross receipts see page (vii) of the general instructions in the paper SA3 form. • Compute a base rate fee for each subscriber group using the formula outline in block B of part 8 of this schedule on the preceding page. In making this computation, use the DSE and gross receipts figure applicable to the particular subscriber group (that is, the total DSEs for that group's complement of stations and total gross receipts from the subscribers in that group). You do not need to show your actual calculations on the form.		9 Computation of Base Rate Fee and Syndicated Exclusivity Surcharge for Partially Distant Stations, and for Partially Permitted Stations

9 Computation of Base Rate Fee and Syndicated Exclusivity Surcharge for Partially Distant Stations	LEGAL NAME OF OWNER OF CABLE SYSTEM: Time Warner Cable Northeast LLC SYSTEM ID# 006482 BLOCK B: COMPUTATION OF SYNDICATED EXCLUSIVITY SURCHARGE FOR EACH SUBSCRIBER GROUP If your cable system is located within a top 100 television market and the station is not exempt in Part 7, you must also compute a Syndicated Exclusivity Surcharge. Indicate which major television market any portion of your cable system is located in as defined by section 76.5 of FCC rules in effect on June 24, 1981: ☐ First 50 major television market ☐ Second 50 major television market INSTRUCTIONS: Step 1: In line 1, give the total DSEs by subscriber group for commercial VHF Grade B contour stations listed in block A, part 9 of this schedule. Step 2: In line 2, give the total number of DSEs by subscriber group for the VHF Grade B contour stations that were classified as Exempt DSEs in block C, part 7 of this schedule. If none enter zero. Step 3: In line 3, subtract line 2 from line 1. This is the total number of DSEs used to compute the surcharge. Step 4: Compute the surcharge for each subscriber group using the formula outlined in block D, section 3 or 4 of part 7 of this schedule. In making this computation, use gross receipts figures applicable to the particular group.
