IMPORTANT: It is no longer necessary to report television signals on a system-wide basis. Carriage of te instead be reported on a community-by-community basis (subscriber groups) if the cable system reported Space G.

In General: If any of the stations you carried were partially distant, the statute allows you, in computing y receipts from subscribers located within the station's local service area, from your system's total gross re exclusion, you must:

First: Divide all of your subscribers into subscriber groups, each group consisting entirely of subscribers station or the same group of stations. Next: Treat each subscriber group as if it were a separate cable sy: DSEs and the portion of your system's gross receipts attributable to that group, and calculate a separate

Finally: Add up the separate base rate fees for each subscriber group. That total is the base rate fee for also compute a Syndicated Exclusivity Surcharge for each subscriber group. In this case, complete both your cable system is wholly located outside all major television markets, complete block A only.

How to Identify a Subscriber Group for Partially Distant Stations

Step 1: For each community served, determine the local service area of each wholly distant and each pa carried to that community.

Step 2: For each wholly distant and each partially distant station you carried, determine which of your sut outside the station's local service area. A subscriber located outside the local service area of a station is same token, the station is distant to the subscriber.)

Step 3: Divide your subscribers into subscriber groups according to the complement of stations to which subscriber group must consist entirely of subscribers who are distant to exactly the same complement of system will have only one subscriber group when the distant stations it carried have local service areas th

Computing the base rate fee for each subscriber group: Block A contains separate sections, one for e In each section:

- Identify the communities/areas represented by each subscriber group.
- Give the call sign for each of the stations in the subscriber group's complement—that is, each station th subscribers in the group.
- If:
 - 1) your system is located wholly outside all major and smaller television markets, give each station's DSE 4 of this schedule; or,
 - 2) any portion of your system is located in a major or smaller television market, give each station's DSE e part 6 of this schedule.
- Add the DSEs for each station. This gives you the total DSEs for the particular subscriber group.
- Calculate gross receipts for the subscriber group. For further explanation of gross receipts see page (vii) in the paper SA3 form.
- Compute a base rate fee for each subscriber group using the formula outline in block B of part 8 of this page. In making this computation, use the DSE and gross receipts figure applicable to the particular sub DSEs for that group's complement of stations and total gross receipts from the subscribers in that group) actual calculations on the form.
